If there is an inconsistency between any of the provisions of this Agreement and the provisions of the Statement of Work, the provisions of this Agreement shall prevail unless the Statement of Work expressly states that it is overriding a specific provision of this Agreement. The first Statement of Work is attached as Appendix A, which is hereby incorporated by reference. For any Statement of Work to be valid it must be signed by an authorised representative of all Parties.
- 1.4. All Parties are subject to the Cardano Constitution and this Agreement and the obligations herein, are drafted to align with the Cardano Constitution.

2. COMMENCEMENT AND DURATION

This Agreement shall commence as of the Effective Date and shall continue for three years or unless terminated earlier in accordance with the terms of this Agreement.

3. STATEMENTS OF WORK

- 3.1. The Customer may procure Services by executing a Statement of Work with the Supplier pursuant to this clause 3 once the Proposal for such work, and the corresponding treasury withdrawal governance action for such work, has been ratified by the DReps.

- (a) the Administrator shall ask the Supplier to prepare a draft Statement of Work for Services required by the Customer in the form set out in Appendix A, which much mirror the Proposal's content;

If the Supplier elects to seek such approval, the Supplier shall continue to provide the unmodified Services pursuant to the Statement of Work. It is understood that the Customer or the Administrator cannot guarantee that such a change will be accepted by the DReps and the Constitutional Committee and in the instance the proposal is not accepted by the DReps and the Constitutional Committee, the Supplier understands that the Statement of Work shall be terminated, effective as of the date of such non-approval, and the Supplier will need to submit a new proposal to obtain DRep approval. This is to maintain the sanctity of the DRep approval process and to uphold transparency to the Community.
- 3.5.** The Administrator cannot guarantee that any changes to a Statement of Work or that a new proposal will be accepted by the DReps and the Constitutional Committee and so any changes to the Statement of Work are at the sole risk of the Supplier subject to clause 3.4.

- (p) where prescribed by the Article 3, Section 5 of the Cardano Constitution, the Supplier shall, at its own cost (unless included in the Fees), ensure the applicable

Milestones undergo sufficient technical review and scrutiny from a third party reasonably acceptable to the Administrator, the scope of which must be acceptable to the Administrator. The Administrator and the Supplier shall agree in writing on the third party technical reviewer and the scope of the technical review;

- (q) where instructed by the Administrator to the Supplier in writing with reasonable advance notice, create and publish video content and blogs on social media platforms instructed by the Administrator, e.g. X, Github, YouTube, Discord, at the frequency instructed by the Administrator (not more than monthly) to provide the Community with a transparent and honest update on each Milestone delivered, the progress being made, detailing any risks to the Milestones and highlighting the overall benefit the Services will provide to the Community;
 - (r) familiarize itself with the Cardano Constitution and shall use commercially reasonable efforts to ensure the Services and Deliverables are performed and provided in material compliance with the applicable provisions of the Cardano Constitution. The Administrator shall promptly notify the Supplier of any material changes or interpretations of the Cardano Constitution relevant to the Services; and
 - (s) comply with the Administrator's policies that are provided to the Supplier in writing by the Administrator and are reasonably applicable to the performance of the Services. The Administrator represents that the most current version of such policies are found [here](#). The Administrator shall notify the Supplier in writing of any material updates to the existing policies or addition of any new policies relevant to the Services.
- 4.3.** In the provision of the Service, the Supplier shall adopt standard agile methodology and shall liaise with the Administrator to ensure the Service is being provided in a timely manner and in line with the Milestones. Time is of the essence in relation to the Milestones where explicitly stated in a Statement of Work.
- 4.4.** Where applicable, during each phase of the Services and in relation to each Milestone, the Supplier shall produce an updated user requirements document and technical specification document which shall include as a minimum a detailed mapping of the way in which the Deliverables will function, all necessary interfaces, users and functionality and any proposed changes to be made to the Customer's processes to the extent such processes are known to the Supplier in relation to specific Deliverables ("**Technical Documents**"). The Technical Documents shall be signed off by the Suppliers' third party assurer as proof of completion when signing off on a Milestone. The Administrator must approve the third party providing the delivery assurance, in line with clause 4.2.n above.
- 4.5.** In relation to the Supplier's personnel, the Supplier shall ensure that all personnel involved in the provision of the Services have suitable skills and experience to enable them to perform the tasks assigned to them, and that such personnel are in sufficient number to enable the Supplier to fulfil its obligations under this Agreement.

5. ADMINISTRATOR'S OBLIGATIONS & RIGHTS

- 5.1. The Administrator understands and agrees that all activities under this Agreement are for the benefit and betterment of the Community and it shall execute its administrative duties in strict adherence to the principles of transparency, decentralization and the provisions of the Cardano Constitution.
- 5.2. The Administrator will either itself or via a third party review every Milestone to ensure that it has been satisfactorily completed. If a Milestone is incomplete, payment for that Milestone may be paused until the deficiencies are remedied.
- 5.3. Repeated non-performance may lead to further action in the Administrator's reasonable discretion. Specifically, if the Supplier fails to successfully complete two or more Milestones, the Customer or the Administrator may terminate this Agreement or the relevant Statement of Work upon written notice to the Supplier.
- 5.4. In accordance with Article IV, Section 4 of the Cardano Constitution, the Administrator shall, either itself or via a third party, ensure the implementation of oversight metrics as to the use of ada withdrawn from the Cardano Treasury and administered by the Administrator.

6. CHANGE ORDER

- 6.1. If either the Administrator or the Supplier wishes to make a change to the Services that does not result in an increase in Fees or a material change to the Services, then:
 - (a) the requesting Party shall notify the other Party in writing, providing as much detail as is reasonably necessary to enable the Supplier to prepare a draft change order; and
 - (b) the Supplier shall, within five Business Days of receiving or providing, as the case may be, the request under clause 6.1(a), provide a draft change order to the other Party setting out the proposed changes and the effect those changes will have on:
 - (i) the Services;
 - (ii) any applicable Fees listed in a Statement of Work;
 - (iii) the timetable for the Services; and
 - (iv) any other terms of the relevant Statement of Work (the "Change Order").
- 6.2. If all Parties agree to the Change Order, they shall sign it, and the Change Order shall amend the relevant Statement of Work only to the extent set out in the Change Order.
- 6.3. It is understood that, in instances where there is a material change to the Services from the Statement of Work (as reasonably determined by the Administrator), or where there will be an increase in Fees under any Statement of Work, clause 3.4 above (and not this clause 6) shall apply.

7. FEES AND PAYMENT

- 7.1. In consideration of the provision of the Services by the Supplier and upon completion of a Milestone, the Administrator will on behalf of the Customer facilitate payment of the Fees as set out in a Statement of Work. If a scheduled payment date falls on a weekend or public holiday, the payment will be made on the next Business Day.
- 7.2. The Supplier acknowledges that the initial allocation of the total Fees to Statement of Work-specific Smart Contracts, Milestone scope changes, payment schedule changes or changes to the destination of Fees, are subject to review by an independent oversight committee (the "**Oversight Committee**"). The Supplier further acknowledges that the Oversight Committee performs a critical function in the payment process for the benefit of the Community. Accordingly, and except in the case of a final, non-appealable judgment or determination by a court of competent jurisdiction of gross negligence, fraud or wilful misconduct on the part of the Oversight Committee directly causing non-payment of Fees, the Supplier shall not to seek any claim, demand, action, proceeding, liability, loss or indemnification against the Oversight Committee, its members or their respective affiliates, directors, officers, employees or agents, arising from or in connection with any decision or action taken by the Oversight Committee in oversight of the Administrator. For the avoidance of doubt, the Customer remains the primary obligor for all Fees properly earned and due to the Supplier under this Agreement.
- 7.3. For clarity a Milestone shall only be considered completed once the Milestone Acceptance Form has been submitted with sign off by the third-party assurance provider and the Administrator, acting reasonably, is satisfied that the Milestone has been completed. The Administrator may elect to carry out its own checks to approve a Milestone. If in the reasonable opinion of the Administrator, the Milestone is incomplete or insufficiently performed, then it is understood that payment may be delayed until such is remedied by the Parties, acting in good faith.
- 7.4. All Fees shall be payable only in ada. The Supplier is required to use a key designated in the Statement of Work to receive payments. Should the Supplier wish to use an alternate key then it is understood that no payments shall be made to the new key until the Administrator has satisfied its internal KYC/KYB process necessary to make payment to an alternate key.
- 7.5. The Fees and other amounts payable by the Customer under this Agreement are inclusive of all taxes, levies, duties, charges, and assessments of any kind for which the Supplier is directly liable based on its jurisdiction of incorporation and operation, including but not limited to income tax, value-added tax (VAT), sales tax, goods and services tax (GST), use tax, and withholding tax (collectively, "**Taxes**"). The Supplier shall be solely responsible for the payment of any such Taxes imposed on it in connection with the receipt of payments under this Agreement. Any Taxes levied by the Customer's or Administrator's jurisdiction on the Customer's payment to the Supplier shall be the responsibility of the Customer, except for any withholding taxes as specified in clause 7.6.
- 7.6. If any Taxes (including any withholding or deduction) are required by Applicable Law to be withheld from any payment due to the Supplier, the Customer shall be entitled to make such withholding or deduction, and shall not be required to

increase or gross-up the payment. The Supplier shall bear all such Taxes and shall not be entitled to receive any additional amount on account of such withholding. Where the Customer has not set a provision aside for withholding tax and such is required to be made, then that amount shall be covered by the provision of clause 7.7 and is payable upon demand.

- 7.7. The Supplier indemnifies and holds harmless the Customer and its affiliates, officers, directors, and employees from and against any and all liabilities, claims, losses, costs, damages, or expenses (including reasonable legal fees and interest) arising out of or in connection with any failure by the Supplier to pay Taxes or comply with applicable tax obligations, or any claim by a tax authority in connection with Taxes relating to payments made under this Agreement.
- 7.8. The Supplier is solely responsible for determining, reporting, and fulfilling all tax obligations that may apply to it under local, national, or international laws, including any registration, filing, or payment obligations. The Customer shall have no responsibility for, and shall not be liable in respect of, any such obligations, to the maximum extent permitted by Applicable Law.
- 7.9. Unless otherwise agreed in the Statement of Work, the Parties shall bear all costs and expenses, including travel and accommodation expenses, incurred by it and its personnel in connection with this Agreement. If such expenses were agreed in the Statement of Work to be reimbursed, then alongside the Milestone Acceptance Form, the Supplier must also submit third party evidence of invoices evidencing such expenses. Where the Cardano Constitution mandates a technical review and scrutiny also be carried out, and such costs were calculated into the Fees, proof of payment must also be submitted. Where technical review and scrutiny costs are not included in the Statement of Work but mandated to be carried out by the Cardano Constitution, such costs have not been approved by the DReps and the Constitutional Committee and must be borne by the Supplier.
- 7.10. The Administrator reserves the right to vet the Services and third party documentation in relation to expenses either itself or via a third party.
- 7.11. The Supplier must raise an invoice in line with Appendix B once, acting reasonably, it believes a Milestone is complete. Invoices must be raised no later than five days after completion of a Milestone. The Supplier will automatically get paid a minimum of 30 days later in line with the Milestone payments set out in Appendix A (either on the 15th or 30th of the month, depending on when the invoice was submitted), unless such payment has been stopped owing to a non-satisfactory completion of the Milestone in the reasonable opinion of the Administrator, acting in good faith. Once such Milestones have been completed, normal automated payments shall resume.

8. INTELLECTUAL PROPERTY RIGHTS

8.1. In relation to the Customer Materials:

- (a) The Customer and its licensors shall retain ownership of all Intellectual Property Rights in the Customer Materials; and

- (b) The Customer grants to the Supplier a worldwide, fully paid-up, non-exclusive, royalty-free, non-transferable license to use the Customer Materials for the term of this Agreement solely for the purpose of providing the Services to the Customer.
- 8.2.** Supplier and its licensors retain all right, title and interest in the Supplier Software, the New Software, the Deliverables and the Technical Documents and all Intellectual Property Rights in and to the New Software, the Deliverables and Technical Documents. In relation to the New Software, the Deliverables and the Technical Documents, the Supplier, in its discretion, may designate the Supplier Software, the New Software, the Deliverables and the Technical Documents as open source as more specifically described as follows:
 - (a) Open Source: Where stipulated by the Supplier in the Statement of Work, certain components of the New Software, Deliverables and Technical Documents will be released under an open-source licence, the specific open source license and timing of such open sourcing to be designated by the Supplier, enabling free use, modification, and redistribution by the public. This promotes transparency, collaboration, and direct contribution to the wider Community.
 - (b) Closed Source: Where not specifically stipulated in the Statement of Work, the New Software, Deliverables and Technical Documents will remain proprietary, enabling the Supplier to maintain necessary control while still empowering the Customer and its affiliates through a perpetual, irrevocable, worldwide, fully paid-up, non-exclusive, royalty-free licence to use and integrate the New Software, Technical Documents and Deliverables for any internal business purpose of the Customer.
- 8.3.** The Supplier warrants that the receipt, use, and onward supply of the Services and Deliverables shall not infringe any third-party Intellectual Property Rights. The Supplier will not be responsible for claims of infringement if the issue results from:
 - (a) using the Deliverables or Services with data, software, hardware, equipment, or technology not provided or approved in writing by the Supplier;
 - (b) changes made to the Deliverables or Services that the Supplier did not make or authorise; or
 - (c) misuse of the Deliverables or Services.
- 8.4.** If the Deliverables or Services infringe someone else's Intellectual Property Rights and that infringement is not excluded as described above, the Supplier will, acting reasonably and mindful of the timeframes of the Milestones:
 - (a) modify or replace the Deliverables or Services (or the affected part) so they are no longer infringing,
 - (b) obtain the necessary rights so the Customer can continue using them, or
 - (c) if neither option is commercially reasonable, terminate the Agreement and refund a pro-rated portion of the Fees paid for the affected Deliverables or Services.
- 8.5.** The Supplier shall indemnify the Customer and the Administrator against all liabilities, losses, damages, costs, and expenses (including indirect,

consequential, or loss of profit, and legal costs on a full indemnity basis) arising out of or in connection with any third-party claim that the Services or Deliverables infringe any third-party Intellectual Property Rights, to the extent such infringement arises out of the Supplier's incorporation or integration of any third-party intellectual property without having obtained all necessary rights, licenses, consents, or permissions required for such use. It is understood that in such eventuality, threatened or actual, the Customer may terminate this Statement of Work with immediate effect, and the Supplier agrees that such is proportionate and reasonable. The remedies set forth in this clause are Customer's and Administrator's sole remedies and Supplier's sole liability under the warranty set forth in clause 8.3 and for indemnifiable claims under this clause 8.5.

- 8.6. A Party may use any general skills, techniques, or know-how acquired in the performance of this Agreement, provided that such use does not infringe the Intellectual Property Rights of the other Party or breach its confidentiality obligations.
- 8.7. All Parties grant the other Parties permission to publicly reference and discuss their working relationship, including identifying the other Parties as a collaborator in communications, presentations, and other public-facing materials, including use of the other Party's trademarks for such a purpose. The Parties shall collaborate in good faith to address any objections by a Party of another Party's public-facing materials.
- 8.8. It is understood that this Agreement and any Statements of Work shall also be published in most part for transparency to the Community.

9. CONFIDENTIALITY

- 9.1. Each Party agrees to keep confidential any information disclosed by the other Party in connection with this Agreement as would be usual in the course of business ("**Confidential Information**"), except as expressly permitted herein. In the event a Party is unsure about a disclosure, it has a duty to receive written consent from the other prior to making such disclosure.
- 9.2. Notwithstanding the above, the Parties acknowledge that this is an open Agreement, and information about the Project, Deliverables, and Services may be shared with the Community and on public forums, including a copy of this Agreement (redacted where necessary). However, the Parties agree not to disclose any information that:
 - (a) Is protected by applicable data protection laws (unless so permitted or required to be disclosed under such laws);
 - (b) Constitutes price-sensitive information, the disclosure of which would result in a breach of competition laws or other regulatory requirements; or
 - (c) Is otherwise restricted by law.
- 9.3. Each Party remains responsible for ensuring that any disclosures made under this clause 9 comply with all Applicable Laws.

10. INDEMNIFICATION & LIMITATION OF LIABILITY

- (b) Nothing in this Agreement will limit or exclude a Party's liability for any breach of clause 8 (Intellectual Property Rights), clause 13 (Representations & Warranties), or clause 17 (No Malicious Code) of this Agreement.
- (c) Subject to clauses 10.2(a) and 10.2(b), in no event shall a Party be liable to the other for (i) any special, indirect, incidental, consequential, or punitive damages; or (ii) any loss of profit, goodwill, anticipated savings, revenue or business, whether based on contract, tort or other legal theory.
- (d) Subject to clauses 10.2(a) and 10.2(b), the Supplier's total aggregate liability for the totality of all claims under or in connection with this Agreement shall be limited to an amount equal to three times the Fees paid or payable under this Agreement as calculated across all Statement of Work.
- (e) Subject to clauses 10.2(a) and 10.2(b), the Customer's total aggregate liability for the totality of all claims under or in connection with this Agreement shall be limited to a sum equal to the Fees paid or payable under this Agreement including all Statement of Work.
- (f) Other than as permitted by law, and irrespective of any contradictory clauses herein, the Supplier shall have no right of action against the Administrator arising from or in connection with this Agreement.

- (g) Without prejudice to the liabilities of the Supplier under this Agreement, the Supplier shall maintain with a reputable insurer sufficient insurance cover to meet its liabilities under this Agreement. The Supplier shall produce evidence of such insurance at any time upon request by the Administrator. Failure to carry adequate insurance gives the Customer a right to terminate this Agreement.

11. TERMINATION

- 11.1.** In addition to any other termination rights set forth elsewhere in this Agreement, any Party may terminate this Agreement or a Statement of Work with immediate effect by giving written notice (email is sufficient) to the other Parties if:
