

Intersect Milestone Acceptance Form

The Milestone Acceptance Form (MAF) must be completed on completion of each milestone and accompany the invoice submitted by to: billing@intersectmbo.org

The form can either be in the body of the email or as a separate attachment.

An update on confidentiality - We understand that our current contracts define a majority of content as confidential, this MAF acts as an attestation of what Intersect will share with its community and membership. Any personal, security or financial information will be omitted.

Contract Name	<i>CoinCeylon (Sri Lanka) Community Hub</i>
Milestone Name(s) & Number(s)	<i>Milestone 03</i>
Acceptance Criteria(s)	<ul style="list-style-type: none">• <i>Host monthly Intersect Town Halls for your region/community virtually in-person. or</i>• <i>●Own, moderate and utilize your own Social Media platforms, such as but not limited to X account and Discord channel within Intersect's Discord server</i>• <i>● Translate content (Intersect and other), as required into regional language/s and support member onboarding</i>• <i>● Host and/or attend local meetups and events, both</i>
<p>What & How</p> <p>Milestone 1: Host monthly Intersect Town Halls for your region/community virtually in-person.</p> <p>Monthly Intersect Town Hall</p> <ul style="list-style-type: none">• What was delivered: The June Monthly Town Hall was held virtually on 27th June 2025, featuring ecosystem updates, Cardano governance news, and multilingual engagement in Sinhala, Tamil, and English. With many attendees joining, community Q&A, and project updates, including the UniHack launch and summary of university outreach initiatives, and Red Cypher event.	
<p>How the criteria was met: This milestone was fulfilled by providing a consistent platform for governance and ecosystem updates, reinforcing regional participation and multilingual inclusivity in alignment with Intersect MBO goals.</p> <p>Watch the Video here - https://youtu.be/zQuA67sxU8I</p> <hr/>	

Intersect Milestone Acceptance Form

Milestone 02: Own, moderate and utilize your own Social Media platforms, such as but not limited to X account and Discord channel within Intersect's Discord server:

- **What was delivered:**

The Intersect Sri Lanka Hub continued its active presence through the **@IntersectSriL X account** and dedicated **Discord hub channels** with the following highlights:

- Community / Event updates
- Promotion and highlights of **Ruhuna Workshop 02, 03, and 04**
- Announcement and coverage of **UniHack 2025**: Sri Lanka's first Inter-University Blockchain Hackathon
- Coverage of **Red Cypher 2.0** cybersecurity event
- Intersect Electin updates and Cardano governance breakdowns
- **X Space – Sinhala & Tamil Community Series**
Held virtually on X (Twitter) A new bilingual community initiative launched in June to create a more inclusive engagement channel for Sri Lankan Cardano community members using local languages.

How the criteria was met:

Social platforms were used as primary outreach tools to drive engagement, governance literacy, and event participation, meeting all outreach-related deliverables.

Milestone 3: Translation & Regional Language Engagement

- **What was delivered:**

Key governance updates, event promotions, and community tool explanations were translated and posted in **Local Languages**, including:

- X posts for Town Hall & UniHack
- Election awareness tweets and Discord engagement
- Bilingual commentary during workshop sessions and Town Halls
- Community onboarding in regional languages

How the criteria was met:

We ensured all relevant content was shared in **English, Sinhala, and Tamil**, ensuring regional inclusivity and comprehension. This strengthened our onboarding strategy and met the multilingual delivery requirement.

Intersect Milestone Acceptance Form

Milestone 5: Host and/or attend local meetups and events, both significant Ecosystem Representation

a. Workshop Series – University of Ruhuna (Each 2hrs Sessions 2, 3 & 4)

- **Workshop 02:** Introduced Cardano wallets, Lace Wallet hands-on demo, UTXO model & smart contract basics
- **Workshop 03:** Introduced core developer tools like MeshJS and Aiken, and real-world application demos
- **Workshop 04:** Explored governance, voting tools, Cardano Academy, and conducted a certificate award ceremony

🇱🇰 **Total registered students: 168+ | 🏆 Certification awarded**

Red Cypher 2.0 – University of Ruhuna (In-Person)

Supported and attended by the CoinCeylon x Intersect Sri Lanka Hub, this cybersecurity CTF event took place at the University of Ruhuna and gathered over 200 student participants from across the island.

b. UniHack 2025 – Inter-University Blockchain Hackathon (June 29, 2025)

- Sri Lanka's **first inter-university blockchain hackathon** featuring **225 students from 61 teams across 18 universities**
 - Final top 10 teams pitched real-world Cardano-based solutions
 - Supported by Faculty of Computing and Technology, University of Kelaniya
- 🚀 **Massive success in grassroots developer onboarding and ecosystem exposure**

How the criteria was met:

These in-person events significantly expanded local ecosystem participation, delivering education, awareness, and real-world builder engagement. They fulfilled the requirement for local, high-impact events that advance Cardano education and governance.

Where

All activities during the June milestone period were delivered through a mix of in-person engagements across university campuses and virtual events, ensuring broad

Intersect Milestone Acceptance Form

regional reach and inclusion.

- **June Monthly Town Hall**
Virtual via Zoom — Reached community members across Sri Lanka and beyond, engaging them in ecosystem updates and interactive dialogue.
- **Ruhuna University Workshop Series (Workshops 02, 03, 04)**
In-person at the Faculty of Engineering, University of Ruhuna — Delivered hands-on blockchain learning to over 168+ students cumulatively, covering wallets, governance, real-world applications, and ecosystem tools.
- **We launched X space series “සජී අග කතාබහ / வார இறுதி அரட்டை”,** a bilingual X Space series, to engage Sinhala and Tamil-speaking community members weekly. These open mic sessions aim to increase awareness of Cardano and Intersect activities among local audiences less familiar with Twitter, while also encouraging governance participation in native languages.
- **Red Cypher 2.0 – Cybersecurity CTF**
In-person at University of Ruhuna — Supported and attended by the Hub; featured 200+ participants across 35 teams focusing on cryptography, reverse engineering, and forensics.
- **UniHack 2025**
Virtual submissions and workshops and *In-person Event at University of Kelaniya* — Sri Lanka’s first Inter-University Blockchain Hackathon brought together 225+ students from 18 universities nationwide.

All content was also distributed and promoted via our **Intersect Sri Lanka X (Twitter) page**, CoinCeylon Socials as well as **localized engagement** in English and local languages

Quality/Testing

To ensure the highest standards across all deliverables:

To ensure quality and alignment with Intersect goals, the following steps were taken:

- **Town Hall**
Zoom session was recorded, archived, and feedback was collected through follow-up discussions, multilingual participation was ensured.
- **University Workshops**
Quality ensured via structured curriculum design (4-part series), use of reviewed content (e.g. Cardano Academy), student feedback via Mentimeter, and certificate issuance based on participation.

Intersect Milestone Acceptance Form

- **Red Cypher 2.0**

Feedback was gathered from IEEE organizers and student participants. High participation and engagement validated the impact and delivery of the event.

- **X Space – Sinhala & Tamil Community Series**

The spaces were conducted as informal, recurring Friday sessions, ensuring comfortable, community-led engagement. Topics included governance, Intersect updates, and blockchain literacy. Initial engagement metrics and listener feedback were used to shape upcoming sessions and increase relevance.

- **UniHack 2025**

Judging panel of expert academics and industry professionals ensured fairness. Top 10 teams were selected from 61 based on scoring rubrics. Event logistics and delivery were professionally managed in collaboration with the university.

Communication

**Please be aware that anything written in this section may be copied directly to Intersect's Newsletter or Gitbook*

The CoinCeylon x Intersect Sri Lanka Hub maintained its commitment to open, inclusive, and multilingual communication throughout June. All major events and initiatives were documented and promoted across our official X (Twitter) profile, YouTube channel, and Intersect Discord server to ensure continued community engagement and transparency.

We kicked off the month by announcing and covering the second, third, and final workshops at the University of Ruhuna, part of our ongoing educational series "Mastering Blockchain Technology & Building on Cardano." Highlights, student engagement, and faculty partnerships were shared via event photos, tweets, and a final recap post celebrating the certification ceremony. These efforts reinforced the educational foundation we're building with university partnerships.

We also supported and attended **Red Cypher 2.0**, a cybersecurity competition hosted by the University of Ruhuna's IEEE Student Branch. Over 140 competing students and nearly 200 attendees participated. CoinCeylon's role as title sponsor and on-ground presence was featured in a dedicated thank-you post, with a highlight video shared to showcase the event's impact.

Mid-month, we introduced a new initiative: "**X Spaces – සිනි අග කතාබහ / வார இறுதி அரட்டை**", a bilingual Twitter Space series conducted in Sinhala and Tamil. Designed to improve governance awareness and Cardano literacy in local languages, this series helps bridge the digital gap for communities less familiar with X (Twitter), while fostering culturally relevant conversations.

The **June Monthly Town Hall** was promoted through countdown graphics, multilingual posts, and speaker features. The post-event video was released along with key takeaways from the

Intersect Milestone Acceptance Form

session, further amplifying visibility and ecosystem reach.

The launch of **UniHack 2025**, Sri Lanka's first-ever inter-university blockchain hackathon, was one of the month's most exciting campaigns. We announced the event via dedicated artwork, registration links, and regional calls to action aimed at university students across the country. With 225+ students from 61 teams representing 18 universities, the event became a focal point for ecosystem-wide attention, culminating in impactful judging sessions and award recognitions—all of which were highlighted in our communications.

Together, these strategic communication efforts contributed to strengthening governance literacy, increasing localized participation, and building real-world relevance for the Cardano ecosystem in Sri Lanka.

Community Hub Lead	Hannah Williams	<div>Signed by:  <small>4F8A4092A150456</small></div>	7/18/2025

Milestone Acceptance Form Guidance:

Accepted By - this should be the person responsible for completing the Quality or Testing review, the person of suitable expertise to attest that the milestone has been completed. It should not be a person from the delivering organization.

Intersect Delivery Assurance Team

Intersect Milestone Acceptance Form

Communication - the cardano ecosystem thrives due to open participation and membership. Intersect will announce deliverables and celebrate the success of its partners. Please provide a few words on how we can best articulate and share this milestone being completed.
