

Closing Report on the Temporary Membership Review Process

Date: 21st July 2026

Executive Summary

Following the publication of the [Statement on the April 2026 Committee Elections](#), Intersect initiated the temporary membership review process approved by our governing board. The purpose of the process was to review each affected membership individually, provide members with appropriate opportunities to respond, and enable the Board to make final decisions in accordance with Intersect's Bylaws.

The review process has now been completed and all Board decisions have been implemented.

Review Process

The review was conducted in accordance with the process approved by the Board and consistent with the requirements of the Intersect Bylaws. The process included the following steps:

1. Temporary suspension of affected memberships while the review was undertaken;
2. Refund of membership dues for all temporarily suspended members;
3. Written notification explaining the temporary suspension and review process;
 - a. An opportunity for every affected member to provide additional information through a questionnaire;
 - b. Individual assessment of all responses received;
 - c. Board consideration of recommendations following the review;
 - d. Where appropriate, offers of reinstatement;
 - e. An opportunity for members to request a formal hearing before any adverse final decision; and
4. Final Board decisions following completion of all review stages.

Throughout the process, affected members were provided with multiple opportunities to engage, submit supporting information, and participate in the review before final decisions were made.

Out of 188 affected members only 4 replied to the request for more details via a questionnaire, and 1 out of those accepted the offer for reinstatement as a member. No member accepted the offer to participate in a formal hearing.

All stages of the review process have now been completed, including the review of member responses, Board consideration of recommendations, opportunities for reinstatement or hearing where applicable, and implementation of the Board's final decisions.

Appropriate records of the review process, including communications, member responses, recommendations, and Board decisions, have been maintained, ensuring an auditable record of the process.

Closing Statement

The Board is satisfied that the review process was conducted in accordance with Intersect's ByLaws, that affected members were provided with appropriate notice and opportunities to respond, and that final decisions were reached following due process.

With the completion of this review, the temporary suspension process arising from the April 2026 Committee Elections is now formally closed.

Intersect remains committed to maintaining fair, transparent and proportionate governance processes while continuing to strengthen the integrity of its membership and election systems.
